

The Federal Communications Commission

Dear The Federal Communications Commission,

I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

Our family uses our portable phone in our cars primarily for emergency purposes but I am aware many use it much more often.

As I understand this, if the flat tax were applied to our state fuel tax I would pay as much for driving 5000 miles as the one who drives 10,000 miles. Of course he uses the road more than I, so he should. If he would get two hotel rooms and I got one then with the flat rate we would each pay the same. This of course sounds silly-----doesn't it?

Please, for just once don't play us for the uncaring people you must think we are. I feel like the well worn rug who has no choice but to be trod on some more and hearing the voice that says "He isn't worth much but maybe we can use him a little longer.

Thank you for hopefully listening.

H. Dale Vaughn, Box 317, Bradford IL. 61421

Sincerely,

Hylde Vaughn
